## FEBRUARY 2010 TECHNICAL PRESENTATION

### SLAUGHTER MOTORSPORT ATTACK ON LAND SPEED RECORD

In the quiet leafy suburbs of Brisbane a dedicated team of people are attempting the ultimate automotive challenge: A land speed record.

Piloted by Trevor Slaughter, this year the Slaughter Motorsport Streamliner will compete in the F/BFS Class as sanctioned by [SCTA](#) (Southern California Timing Association, USA) and [DLRA](#) (Dry Lakes Racers Association, Aus). This is the build up to bigger things where the team will attempt to break Donald Campbell's long standing wheel driven record: the 1964 record of 403mph (645kph).

Come and join us for a night with Trevor and the team. Hear the challenges and take a closer look at the engineering that has gone into overcoming the massive forces involved.

Trevor will present to the group followed by group tours of the streamliner itself.

Please **register** your intention to attend this important meeting by contacting the IAME Brisbane Office on (07) 3274 5564. Booking is essential for catering purposes.

When: 6:30pm, Wednesday 17 February 2010

Who: Mr Trevor Slaughter, Slaughter Motorsport

Where: Available at time of booking.

(Light refreshments will be provided)
